# Crisp 2K<sup>+</sup>

## Make every detail count with impressive 2K<sup>+</sup> resolution

When it comes to reliable home protection, details always come first. The H3c 2K<sup>+</sup> offers superior video quality in stunning 2K<sup>+</sup> resolution. It ensures that you stay well informed of every important activity happening at home.

## See in color, even at night

Unsatisfied with blurry, overexposed black-and-white images during the nighttime? The H3c 2K<sup>+</sup> makes late-night protection easier by restoring colors and details. In addition to a pretty sharp IR night vision, the camera can light up the environment with two built-in spotlights to render color night vision.

## Receive smarter notifications

The camera's on-board AI algorithm helps distinguish and detect moving people in particular. It reduces alerts caused by falling leaves or flying insects, and informs you when someone enters your property area.

## Ring up a call by simply waving your hand

Your family members or visitors can initiate a video call to your phone<sup>3</sup> by waving at the camera. Whenever your kids come home from school, they can let you know.

## Communications can be this easy

Enjoy two-way audio by simply using your smartphone. Or, pre-record a 10-second voice message that automatically plays upon human motion detection.

## A vigilant guard who works around the clock

The H3c 2K+ integrates EZVIZ's beloved active defense function to provide an extra layer of protection. Upon detection of intruders, the camera will set off a loud siren and flash two spotlights<sup>4</sup> to warn them away.

## Protection lasts, even in harsh weathers

---

Thanks to its well-built camera body, the H3c 2K<sup>+</sup> is IP67-rated to withstand even the toughest weather conditions – whether it's rainy, stormy or snowy.

## Smart integration, hands-free control

---

You can integrate the H3c 2K<sup>+</sup> to your existing smart home system. Voice-enable the live viewing with “Hey Google” or “Alexa” to check what’s happening on a bigger screen.

## Extra-Large, safe storage options that you can trust

You can secure your recorded videos on a local microSD card of up to 512 GB, or subscribe to EZVIZ CloudPlay for fully-encrypted cloud storage<sup>1</sup>.

## Enhanced viewing pleasure with smaller video files

Compared against the prevailing H.264 video compression technology, H.265 creates a more fluid viewing experience with recorded footage. Meanwhile, you won't have to worry about large video files taking up too much of your storage space – H.265 technology can reduce their sizes by up to 50%<sup>5</sup>.

1 A local storage card must be purchased separately. Cloud storage service is only available in certain markets. Please verify the availability before making any purchase.

2 Google Assistant is not available in some languages and countries.

3 The video call via EZVIZ App can only be triggered when the camera detects a waving-hand at the distance of 3 to 5 meters in front of it.

4 The spotlights will not flash when the color night vision mode is enabled.

5 Data from EZVIZ Lab's test results under standard conditions. The video compression efficiency will vary with the frequency and complexity of the activity captured, as well as other environmental factors.

6 Users can draw in rectangles to customize up to 4 privacy zones.
